CNK no:13 - spring 1977

INTRODUCTION

COSMOLOGY IS THE SCIENCE OF THE UNIVERSE AS A WHOLE; A TREATISE ON THE STRUCTURE AND PARTS OF THE SYSTEM OF CREATION. OUR TITLE, CNK, WAS FORMULATED FROM THE NEED TO PUT TOGETHER INTER-RELATED SUBJECTS WHICH MAY PRODUCE SOME ANSWERS TO THE SUBJECTS THEMSELVES; AND PERHAPS LEADING TO THE CONCLUSIONS OF SOME OF THEM-IF NOT ALL OF THE EARTH'S MYSTERIES. IN THIS CASE CNK HAS ACCOMPLISHED ITS FUNCTION. MOST OF OUR TITLE WAS SUGGESTED BY Mr. PATRICK DINEN, OF CO. KERRY OF IRELAND-WE ADDED THE LINK.

INFORMATION ON CNK

This magazine is DEFINITELY non-profit making, is sent for copyright each time it is published. CNK is kept going by the courage of the readers and editor with donations and with luck subscriptions. These are at the subscribers risk as CNK is not guaranteed to appear on time or at all due to many things. LETTERS: ALL LETTERS FROM READERS WILL BE ANSWERED IN TIME (enclose S.A.E). THIS ISSUE OF CNK IS NOW AT ITS REGULAR SIZE AND 25p EACH only.

COPYRIGHT: WHERE AN ARTICLE OR PHOTO CANNOT BE TRACED TO THE ORIGINAL SOURCE, THE

EDITOR OFFERS APOLOGIES SHOULD ANY RIGHTS BE INADVERTENTLY INFRINGED. REPRODUCTION FROM CNK may be used providing the copyright is stated, and our name and address published.

OUR POLICY

Material in CNK are the views of the writers and the editor, and no other material or exchange information accepted unless it falls into line with our main aims. NO LIGHT CENTRE MATERIAL WILL BE ENTERTAINED UNLESS POSITIVE PROOF OF THEIR CONTACTS CAN BE PROVEN. ONLY A SMALL AMOUNT OF OCCULT IS ALSO ALLOWED IN CNK.

EXCHANGE MAGAZINES received: FORESIGHT, APRO BULLETIN, NORTHERN UFO NEWS, DOWER MAGAZINE, MUNDO MONITOR, PAGE RESEARCH LIBRARY NEWSLETTER, NEWSCLIPPINGS FROM: BOB BLOMVILLE, & GENE DUPLANTIER, SKYWATCH. (If your magazine has not been mentioned and was sent, we will acknowledge next time).

ACKNOWLEDGEMENTS TO: UNITED STATES PRESS OFFICE (Mars Photos), NOVOSTI INFORMATION (UK). DONATIONS:

We would like to thank Elliot Bliss and Carol Halford Watkins (Canada) for the kindness in sending donations for the survival of CNK... Also to warm hearted Beryl Wallace for the same. Without your help this issue would and could not have APPEARED.

Our Address: 37, The Close, Dunmow, Essex, England; CM6 1EW.

Please see editorial for extra news.

EDITORIAL

From EDWARD HARRIS
Editor

Dear Readers,

Winter is taking its toll in this country on machinery and people. This magazine has suffered due to the cold! HOW! As you know, metal of all kinds tends to SHRINK when frozen and this shrinkage led up to the breaking of the Bands on my Gestetner Duplicator and the snapping off (probably) of the letter 't' on this typewriter. Unfortunately for CNK the spare letter 't' is made in Spain and our local suppliers now no longer stock any Olivetti machines as they cannot get the spares. Therefore throughout this issue on some pages you will notice the 'make shift' 't' which does not fit. We are still waiting for the correct one. Also due to illness myself, CNK had been delayed and only ONE was produced in 1976. Since I removed from London to this area, things have never been so good, and therefore I do so hope 1977 will bring luck to CNK and of course its dutiful readers. I WISH TO SAY A BIG THANK YOU TO THE FOLLOWING PERSONS, in order of presentation, for their kind gifts of money to help get CNK back again: ELLIOT BLISS, CAROL HALFORD WATKINS (once editor of Canada's UFO type magazine TOPSIDE), and to BERYL WALLACE, who donated very large sums in order for me in this case, to buy spare parts for the duplicator. My warmest thanks to you. These persons will receive a free gift in return as soon as it is published.

The above, refers to the giant encyclopedia which I have to compile soon on strange and unusual phenomena. It will run to about 500 pages per volume, will be fully documented as possible and hardback bound.

I wish to thank publishers of special books who have continued to send me for review their works, they will be seen here in due course.

0000000000

LAST YEAR CNK MADE THE NEWS. We acknowledge with thanks the Braintree & Witham Times for their full page write-up they gave us in their TWO newspapers on the 1st September & 16th. The full story will be seen in CNK in due course, or even in this issue perhaps.

CNK hopes to be buying soon, a special typewriter which will give CNK a better professional look. It is not far short of an IBM golfball. So here's looking forward to a better 1977 for CNK and the health of readers and myself. HAPPY NEW YEAR!

Letters

THAT YOU WRITE: EXTRACTS ONLY
DUE TO LENGTH ETC.

DEAR ED:

YES, GOT YOUR CUSS/MUCK/ HOLY GEE MAGAZINE AND IT NEARLY MADE MY HAIR CURL WHEN I SAW THE COVER. TREE-MENDOUS! NOW IF IT ONLY HAD STORIES WRITTEN IN GOOD ENGLISH INSIDE....WOWIE! HAVE YOU EVER THOUGHT OF BRINGING OUT A FRENCH VERSION? NAW, FORGET IT, YOU'RE IN ENOUGH TROUBLE NOW ALREADY! BUT SERIOUSLY FOLKS, HOPE YOU GET YOUR MACHINE TIED BACK TOGETHER AGAIN, WOULD SURELY MISS CNK IN THE MAIL. AFTER ALL, IT'S ONE OF THE MAIN MAGS..... THAT I STUFF IN MY GRAB BAG SPECIAL! BOY, I'M REALLY BEING CRUEL, ARN'T I? I GUESS I'M SO HAPPY TO HAVE HEARD FROM YOU I'M REALLY HAPPY TO HAVE HEARD FROM YOU.. I KNOW YOU CAN TAKE A HIT OF "FUNNIN" AS THEY SAY DOWN SOUTH, IN THE US, THAT IS. HOPE YOU HAD A MERRY CHRISTMAS AND THAT YOUR NEW YEAR WILL BE THE BEST EVER! TRUST YOU'VE GOT ENOUGH WATER AGAIN.

Gene Duplantier (Canada)

*reply: Gee Gene Gee, what a send-up you've given me and CNK for 1977, the cover was professionally produced-heck-I'm still paying off for it too! 'Fraid we don't have cut-throat competition over here regards INSTANT print companies, so it's this method or nothing at the moment. If you are reading this, then you can see I've 'tied' my duplicator together and we are back in production again. You are not right about my 'bad' English. Although I still have a lot to learn about English Grammar, sometimes I get sidetracked (someone talking to me while I'm typing) or the last heatwave was distracting, that typing errors are apparent. Also I try to squeeze important information into every inch of these pages, cutting down on Grammar as I go. There-I hope that will do for an answer. HAPPY NEW YEAR TO YOU TOO! (yes we now have enough water-its last years' drought).

IN CONNECTION WITH A UFO NEAR LANDING CASE AT OR NEAR HAMPSHIRE WE WROTE TO THE BBC ALSO ON BEHALF OF APIO (USA): The case will be seen in the sightings page: From the BBC:-

Dear Mr. Harris, please forgive my tardiness in replying to your letter. It is not BBC policy to supply transcripts of our programmes but we suggest you write to the freelance reporter who did the story. Yours Sincerely Jacqueline Ellis, Senior Production Secretary Newsbeat. * FOOTNOTE: We will do so while this is being typed and if any reply, will be seen in the sighting page or elsewhere.

Dear Ted:
SAD NEWS! ROY LAKE RESIGNED FROM THE ESSEX UFO STUDY GROUP. I FOUND OUT JUST TODAY FROM MALCOLM JAY, WHOM I TELEPHONED, THE GROUP IS NOW IN THE HANDS OF (I THINK) RON MARKWICK AND (DEFINITELY) DAN GORING, FOR AS LONG AS IT WILL LAST. IT'S A SHAME ABOUT BUFOSG, BUT THEY CUT THEY CAN'T SAY THAT I (IN FACT, WE) DIDN'T WARN THEM. IT WAS ROY'S LAST SAUCER AFTER ALL! THE PROBLEM IS WHAT CAN WE DO ABOUT IT? I DON'T WANT TO START UP A UFO GROUP, ALTHOUGH DESPITE WHAT I SAID IN MY LAST LETTER, I WOULD LIKE DAN TO JOIN US. WHAT DO YOU THINK? DAVID T. PROCKTER

*reply: I'm very sorry to hear that Roy has been chucked out of his own group-this reminds me of something which happened to me a long time ago by a certain party who lives in STOCKWELL. So a new captain is at the wheel eh? Don't take this too much to heart Roy, as I'm sure you'll find a way back again. SEEMS LIKE MY PREDICTION HAS COME TRUE, yet I wished it had not. There is nothing wrong with Roy's leadership of the ESSEX GROUP but just his too soft and friendly way of putting it to the assembly. I have been to most of these conferences, and Roy's NORMAL approach to talking from the top place is like listening to a cozy chat over the fireside chair. I think this relaxed and Val Doonican style of his wasn't met too well with other members, who went there for some answers. There should be no squabbling in UFO GROUPS about anything, and until this happens by the end of this century then UFO groups will be a total waste of time, effort and money. ITS NOT PERSONALITY CONFLICTS WE WANT TO SEE, but UFO STUDY AND RESEARCH. (As far as I'm concerned, Roy Lake opened up this door and a few odd balls have been getting through with no intention of doing ufology) Roy can do better on his own, I know he can. He ought to lend his talents and information to other groups (FREELANCE) and get these PUBLISHED because only members of groups get the groups magazines-not the people. MY ADVICE TO ROY IS TO START UP A CLEARING HOUSE FOR UFO INFORMATION, of which only he is allowed to run, and the information is accessible to ANYBODY. In this way ROY will still be in charge, but of HIMSELF, and the only responsibility he would then get would be for HIMSELF, and the information he would loan out for publishing to other groups. By starting such a information Centre, this would make Roy Lake one of the most important people in ufology today, even if groups don't need him. This is the picture I'm getting, I hope its the right one-for once. -editor

Dear Edward, I am now very busy preparing for my trip to England, so for now this will have to be a short letter with brief comments. I sincerely hope that others will respond to it too (donations)

as it would be a great pity if your long-standing magazine were to fold up. There is no point in badgering me to continue with TOPSIDE (as much as I appreciate your kind comments on it) as I have a lot of other things to do, including a book & some articles I hope to get published and in any case, I've now lost touch with the UFO Scene. I can give you some information on Brinsley Le Poer Trench. He had to resign his position of President of CONTACT, but has since been made founder-president of the movement. Dr. J. Cleary Baker is now President of Contact Int. This year (1976), he has inherited the title of The Earl of Clancarty and sits in the house of Lords every afternoon it is in session. He devotes his mornings to writing another book, so one way or the other, he is a busy man. So here's wishing you again a Happy Holiday Season & looking forward to your phone call. With warm regards to you and your family. Sincerely CAROL (Halford Watkins).

*Carol, I hope that by the time you get this, all the indifference and mistakes of the past few months will all be forgotten. It was nice hearing your voice again, even if it was few a few seconds. I'm looking out for that small article you were going to write for CNK. Make it soon eh? Thanks a lot. Happy New Year! Ed.

Dear Ted, FROM ROY LAKE 3-8-76
It was nice to hear from you once again, after such a long time I was very pleased to receive your mag, and I do like your front cover. Well how are you keeping? Also how is RITA? The enclosed journal as you can see is much improved to the NEWLETTER we used to do. As far as the group is concerned we are going quite strong now and we are preparing for a big meeting in Chelsford next month (September). Thank you for the write up you have given us this time, please feel free to use any report that you find in our journal, of course please give us a mention when you do use the articles. Well Ted must close now I look forward to hearing from you soon, until then keep up the good work and don't forget to write back. All the best your old pal ROY
BUFO SC

1st September 1976 FROM ANDY COLLINS (ex-BUFORA RIC)
Dear Ted, Just a few lines to tell you that I am giving up all research into ufology and of course my position as R.I.C in Essex for the British UFO Research Association. This is due to various problems I have at the moment, and the feeling that all my efforts is in vain. (PTO)

I can no longer carry on in ufology with so many problems raging between various organisations and groups. At times like these BRITISH UFOLOGISTS should be pulling together as one, but no, it is all 'back stabbing' each other. From now on I will just watch from the side-lines and maybe at a later date re-join British ufology to a better satisfaction. Anyway thank you for the last CNK, of which I found very interesting. Cheers for the Angering affair mention, (I hope Ed o'Hare showed it to Mr. Charles). So keep in touch and keep up the good work, All the best
ANDY COLLINS (Essex).

* I agree with you verhememently (have I spelt that right) about groups fighting over stupid DUMB trivial things, as you can see in our letter page. It's no good just telling them to PULL their socks up, because just like a bunch of schoolkids, is the way they are behaving. This is not confined to the small groups but to those 'big Daddy' groups who should SET US AN EXAMPLE.. Well, why don't they. For instance: LETTERS GO UNANSWERED (the chief woean), AND THEIR ARE A LOT OF SHUT MINDS IN THESE PLACES. It's about time they got their fingers out and started getting on with the job at hand. I say it again, like I said before GET YOURSELVES OFF FROM YOUR BACKSIDE-AND GO FIND THE UFOs, nothing is accomplished on paper-MOVE ABOUT A BIT get with it for 1977-Editor.

FROM DAVID COMMONS (reader) 5.6.76
Dear Mr. Harris, Issue number 10 of CNK I thought informative, but I did not like the way you 'knocked' BUFORA. However there were some good points raised on both sides. In issue 11 of CNK there is a quite extensive article on Clapham wood. I found this very interesting, but thought there could be a lot more done on the case, such as pictures drawn by witnesses of the UFOs and either pictures drawn of the foot-print or plaster-casts taken. (pref, both). I suppose a lot of information had to be left out because of lack of room in the magazine which is always frustrating thing for the editor (yourself) who has to decide what is and what is not relevant to the case so more room can be made in the magazine. So I suggest an extensive issue which you could feature this case and maybe another in full. I was wondering if you still had any of the powder left from the sighting? because I would appreciate a sample.

I would just like to point out that Sussex are in the middle of a flap at the moment. I was lucky enough to get given a case from this flap but the lady only half filled in the account form and refused to talk to me. I saw at the bottom of your letter you sent me that you would like newspaper clippings sent to you. I have a few, mostly local sightings that have been investigated or written off as flares, but I have taken photo-copies just in case you want them. Also, if you hear of any sightings in the Surrey area I would be very grateful to hear about them. Sincerely DAVID COMMONS 1, Miles Road, Epsom, Surrey, England. (if anybody can help David here - thanks)!

APRIL 20th 1976 From RICHARD MONZIETTI, U.S.A.

Dear Edward, Thank you for the complimentary copy of Cosmology NEWSLINK which arrived a few weeks ago. During the mid 1960s we operated a UFO group and published a bi-monthly mimeographed (duplicated), newsletter which grew to 10 pages to 12 etc. But sometimes we were hard-pressed to get material for the mag. I understand your problems with your typewriter, for without it we had no way to get out our newsletter and we put out many late issues.

Wishing you all the best for CNK, Very Truly yours, RICHARD MONZIETTI

*The typewriter problem will be over soon in the next 11 weeks - we hope to get an all electric print-style typewriter at enormous expense to me, it should improve CNK no end. I'm keeping my fingers crossed.

NEWSFLASH: CAN ANYBODY HELP ME TRACE THE WHEREABOUTS OF MONKA AND CIVIL SWANSON, WE NEED TO CONTACT MONKA URGENTLY: The last known address was: Monka Swanson, Kinistino, Saskatchewan, CANADA, they are missionaries of some description, moving from parish to parish. A year's free CNK to the finder. Thank you all.

FROM BOB BLOMVILLE-London. Oct 24th 1976

Dear Ted, I received your Appeal-bully you are lucky it got here you had put the wrong post code on. If you recall, I did offer you a job for a few hours per week, writing for a few hours per week which you saw fit NOT to reply to. Cash is hard to come by for genuine working-class folk. What about all the people you don't advertise for in CNK, get with it mate, political-wise. All this spare lark is ok (hobbies etc), if one has an income to pay the bills and eat. Forget it mate think about you, and yours. If you want money (for repairs) come in with me under the right banner. Sincerely BOB BLOMVILLE (NATIONALIST PARTY member).

* Thanks for the donation Bill, it all helps. As you know CNK cannot be politically minded - it is NOT for politics - but as a universal magazine of all kinds, races, and creeds. I personally do not wave ANYONES FLAG - except perhaps one day that of the United Nations. - Ed

UFO FORUM

ABOUT UFOs AND OTHER THINGS - from BERYL WALLACE

Beryl Wallace at home, with the book SILVER BRIDGE, in Rochampton

The UFO Business seems to be very shaky one of late partly because the media does not give coverage to sightings any more, even as interest items although in America a series of programmes have been designed and narrated by Jack Webb of Drag Net fame introducing the public to UFO Knowledge. The reason for these programmes is to get people used to the idea of possible intruders into our air space and test their reactions, if there is panic of any kind then the old policy of silence will be maintained. My sister Cherry says the Americans would panic at their own shadows judging by their reactions to a UFO flap in

Florida Funny enough speaking of intruders, I have just been reading a series of interesting books by Carlos Castaneda about his apprenticeship under a Yaqui indian sorcerer or 'brujo' called Don Juan and his indian speaks of people that a brujo calls allies and these allies are not human. Apparently when you see and not just look at human beings they show as egg shaped light but an ally will still look like the form it is in and Castaneda himself had an encounter with allies after visiting a friend of Don Juan's named Don Vincente. Interestingly, the Yaquis use drugs in their quest for knowledge peyote, jimson weed and an hallucogenic mushroom because these drugs loosen a man up and enable him to see better. I have a feeling that this could be the reason why teenagers who take drugs for kicks of the kind that the brujo uses bring trouble on themselves because the indians to a certain extent control their own reactions the unprepared do not and according to Don Juan people who come as he calls it this way can be killed by Mesaalito the peyote god who cannot tolerate fools (who can). Castaneda's books

and fascinating because they show an outlook which is a lot more refreshing than our way of doing things and indeed he was a lucky man because the Yaquis are still about the fiercest people around. Another tribe known for their murderous intent towards strangers are the Seri except for those whom the missionaries (damn them) have got at. I know one thing if I could have a moan about something it would be about the way missionaries charge off to other countries and destroy their way of life simply because they want everybody to be Christians. Getting back to UFOs however, after the little sermon above, I notice that a lot of people are coming to Keel's conclusions about all phenomena being linked in some way i.e. having the same source because a scientist talking on a BBC programme about paranormal phenomena reckoned that some phenomena was stage managed from outer space, in order to give the earth a taste of their power, a funny way of doing things I would have thought, but logical if you wished to reveal yourself as being behind it all at the end. I know I should not talk about them but I'm going to because the thing that bothers me still about M.I.B. (men in black) reports is their resemblance to the American Indian, these persecuted people have enough to put up with without somebody taking on their looks and at the same time posing as US Air Force officers, although you have got to admire the genius behind it all. Another thing, have you ever noticed how these space people have the M.I.B.s tanned skin one of Adamski's books gives a good example of this. Keel reckons that they play both roles in that they turn up as the contacts and later the threateners. If this is so, no wonder everything is in such a bad state of affairs.

(Extract from a letter sent from Beryl Wallace 15th Nov. 1976)

Dear Edward, I'm so very sorry to hear about all your troubles, and the machines breaking down and wish I could do more to help. I enclose towards repairs etc. Things always do seem to go wrong they go at the same time. I myself have been quite ill with 'flu and am not yet recovered, and my cousin has been quite ill in the last few weeks. I do hope things will improve for you and for the magazine, it is a bad time for most people and enterprises of this kind at the moment. With every good wish.

*Hope you are well now and cheers for
1977 to you and your cousin- Ed.

Eliot Bliss (B. Sport)

NEWS & SIGHTINGS ☆

DR. ALLEN HYNEK IN BRITAIN December 10th 1976

On London Independent Television, on the above date, ITN NEWS at 10.00pm interviewed one of America's top scientists when he was here for a visit: PETER FAIRLEY of ITN REPORTED: "One of America's Chief investigators of Unidentified Flying Objects, has arrived in London. He's the astronomer, Professor Allen Hynek. He's also special consultant to the United States Air Force, and he said that 15 million Americans say they have seen flying saucers. Professor Hynek said that's too much evidence to dismiss this as pure imagination, or the work of cranks. Science editor Peter Fairley asked him if anyone had found any parts or wreckage of a saucer."

HYNEK: Not from the saucer itself, but the U.S.A.F have recently released a catalogue of some over 500 cases in which UFOs seen and perceived, for instance, an isolated case in Iowa there was a burnt 30ft patch was made in a soy bean field was noticed, and when I looked and investigated there, it looked to me as though the patch had just been irradiated by a micro-wave oven-that type of thing, you know.

FAIRLEY: Well sometimes people claim that they have seen creatures. What sort of form do these creatures have? Again, is it imagination?

HYNEK: I don't think it's imagination, if it is, it's a very very strange form of imagination, but the things that are most common denominated, the most frequent reported creatures are 2 1/2' to 4' tall, rather large head, spindly bodies, and their most natural reaction is not to communicate but to escape away.

FAIRLEY: Where do you think these things come from-if they do come from somewhere else?

HYNEK: I just don't know! I mean, that's the research problem, I mean, if I weren't a scientist, I could probably make up lots of interesting stories, but then I have to stick to the facts and work from the facts, to some hypothesis, then we're having to cut in to(at this point I lost the tape transcript due to distortion on tape)-Editor.

Here's a sighting taken from the Warminster FOUNTAIN JOURNAL DATED NO3 1956: one page is missing and we have to continue where it is thus:
GOLDEN DISC SEEN LOW OVER ELM HILL

The quantity of sightings of UFOs seen over Warminster since production of no 2 edition of this journal precludes.....(missing page)

Page 7 (continued) It's body was metal grey visible in the fading light. No sound could be heard and as it flew over the copse at Cradle Hill, some quarter mile away, and banked to the west it clearly had no wings but was just a body in flight. No windows could be observed and no exhaust. A very faint sound like that of a turbine was detected by some watchers, not others, but it in no way sounded like a jet or a turbo prop engine. The object emitted flashes on one occasion and Barry flashed three times three dots with his powerful torch and at once the signal returned. The quickness of the response gave the impression that the process was automatic rather than manual. I have noticed this feature before and it would seem that any short sequence is faithfully returned immediately. The flashes were definitely not lightning as they were from a point, there was no cloud anyway.

-000-

A case reported in 1972 came into APRO's office which has just been released via their bulletin. We have mislaid this one, but it has some connection with the above case. Two people were going home at night in their car, when the lady saw a bright star like object out of the window. She saw it started to flash on and off. In a lighthearted way (as far as memory serves me) she started to signal the 'star' which staggered her when it returned, the same pulsed light in return. The object scared both of them as it boomed in low, stalling the car. The driver at this point got out and opened the bonnet and saw to his amazement that the sparks from the plugs were not going through to the transmission, and he was a qualified engineer. The UFO veered away and the car started up again. (When I find this APRO BULLETIN I'll publish this in more depth).

SPAIN: (Credit The FOUNTAIN UFO JOURNAL) 5/5/76
"It had a metal cupola, emitted smoke but was 'silent.'"
Seville: Two women of this district are certain that on Friday April 30 in the evening, they saw a UFO at Las Lapas, rear of the Las Ganteras military camp. Leopoldana Parra Becerra, 45 year old, together with her cousin Carmen Penada were in the orchard of her husband. (direct translation). Although the evening was cloudy they saw at a constant light a dark-coloured object with an oval-shaped metal cupola about 2 mts in diameter which emitted smoke intermittently. THEY THEN RAN AWAY!

oOoOoOoOo

Extracts from the APRO BULLETIN September 1976:

UFO - JETS IN CHASE OVER TEHRAN... Two phantom jets of the imperial Iranian Air Force pursued and were chased by brightly lit UFO over the eastern suburbs of Tehran on Saturday night September 18th. Flying at 6,000 feet and sporting alternately flashing red, blue and green lights, the object was first spotted by Mehrabad airport control tower officials. They immediately informed the Air Force which sent up two phantoms off in pursuit. The pilots eventually caught up with what they described as a "round body" due south of Tehran, but as the aircraft approached the UFO increased speed to what they reported as "many times the speed of sound" and then turned in its course to chase the jets. One pilot said that although they broke the sound barrier it was impossible to catch up with the object. They reported that the pilots tried to open fire on the object when it became obvious that it was changing course and beginning to pursue them, but inexplicably, their electronic operated firing devices failed to respond. As the object came within five kilometers radius with the phantoms, all electronic devices on the aircraft went out of action and they lost radio communications. The object chased the jets only for a short time before taking off at great speed and disappearing over the hills south of Rey. One pilot said he saw a "bright object" detach from the UFO and fall into the hills below. Two conflicting reports; One said nothing was found, the other said something was found. There were other witnesses.

BALL OF FIRE MYSTERY. January 15th 1976 (Credit:
COUNTY POST, TIMES HERALD.

Mystery surrounds last week's 'ball of fire' sighting over Epsom and Ewell reported by seven people. It happened just after 10 o'clock on Monday morning December 29 1976. Six golfers on the downs saw it and a nurse at Epsom District Hospital looking out of a window spotted it too. The two groups of golfers sighted the phenomenon almost simultaneously and walked across the fairway to ask the others had spotted it too. They said they were on top of the downs when they saw the ball of fire. At first they thought it a reflection caused by the sun shining on an aeroplane. But after ten seconds the ball disintegrated. (extract due to lack of space):

UFO ALERT ON ISLE OF WIGHT (undated news clip).
Two sightings of a UFO are to be investigated by the ministry of defence. Both sightings were on the Isle of Wight—one at Ryde last Thursday and the other at Bembridge a week earlier. The latest sighting was reported by Trinity House pilot's assistant Rod Ridell and his wife Jenny. Mr. Ridell said they saw a bright light move towards their home just after Midnight. "The UFO hovered overhead about 300 ft up and was like "a rectangular hovercraft" with no windows. Then it picked up speed and flashed out of sight."

(DUE TO LACK OF SPACE AND A VERY HEAVY INFLUX OF UFO SIGHTINGS OF LATE CNK WILL HAVE NO CHOICE BUT TO LEAVE OUT SIGHTINGS WHICH ARE OF LESS IMPORTANCE IN FUTURE).

UFO OR MOON—THAT IS THE QUESTION? A suspected sighting by Michael Milton (Metaphysical Researcher). Jan 1977
"I was walking along through the New Estate near Nuffield Road Cambridge at about 2pm 12th Jan. On looking into the grey sky (overcast), I saw an object which instantly I took to be a half moon but looked again almost immediately as I realised that suddenly I have never seen a half moon quite like this. It was like a half moon shape, white in appearance in front of an overcast sky but with pointed ends (see sketch) Owing to heavy snow I could not return and confirm."

Michael Milton—researcher

Michael Milton's been interested in Red Indians and the fact that I (The Editor) was in communication with an Indian Newspaper of the Mohawk Nation USA, got us together in a most unlikely place, which shall remain anonymous. I discovered, what I at first thought was an eccentric sort of person, who dabbled in the really strange and the unknown to such an intense degree that the eccentricity now seems groundless. Anybody who is deep into Metaphysics will know the feeling well—ie— "what an oddball person—and those who talk about UFOs are sometimes given this label.

However, Mike's recluse like way of life began with his reading of LOBSANG RAMPA BOOKS, books which at first glance, to me seemed nothing to do with UFOs..but I am wrong.

OUR MYSTERY WORLD

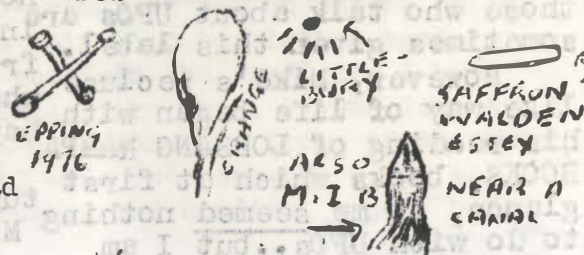

AS TOLD TO THE
EDITOR BY.....
Mike Milton.

There are a lot of hidden mysteries and Michael intends to uncover them, he says for the benefit of mankind. He says he has read evidence which links such races as the Red Indians of the USA, gypsies and other persons with the HOLLOW EARTH THEORY. He says they originated from there. Is there a opening at the poles of the earth which leads inside our planet to a central Sun? CNK has set out to find out from the armchair that is.

Michael says that most of the strange mysteries are only now coming to light in the western world from the far East where these things have been known and practised for centuries. Some of Mike's studies have

led him into metaphysics, which seems to tie in the following (I believe): THE HUMAN AURA, a study of biofields which surround all of us, which can be seen by some gifted persons alone or with instruments or with practice. Mike says that illnesses can be seen coming BEFORE they appear in the physical plane in the aura BEFORE time. He is into pyramid research, anti-gravity, UFOLOGY. But he can only study one at a time. He has discovered that, for instance, American Indians lived a more healthy life in their teepees with a central fire inside. Modern housing he explains runs the gauntlet of illnesses stemmed probably from the fact that air-flow inside a house becomes stale and with condensation on the walls and windows etc. (How unhealthy). He believes mankind is rushing backwards into oblivion, by trying too hard to go forward, and that if everyone was to live Indian style we would be a far better race of people. "The American Indians" says Mike, "put all their waste products back onto the land, including human excreta. Now what is mankind doing?? He uses sewers which pollute the rivers and streams. How mad is this"

As for the world itself, explains Mike, "It is hollow, like the moon and Mars, I believe somebody is living there. Even a U.S. Airman got lost at the North pole and reported he had seen green vegetation and even a prehistoric mammoth too living and moving around. "He had flown into the centre of the earth. You can see reflections of a city in the sky sometimes when you are at the poles - this is the cities INSIDE the earth." Mike is wondering why it is there is so much interest being shown by various countries who have established bases in these places. At the moment Mike is studying to develop instruments that can detect the human aura, and has asked CNK for help in asking readers if they know where he can set up premises for his experiments into the aura or anti-gravity. He said he is looking for accommodation for this and it must be 14ft x 14ft x 14ft high. Special lighting will be coupled with a musical note to produce colour change effects too. As to UFOLOGY the following sightings have been seen. To close, once again, if any one can help a very reliable and sincerely honest person like Mr. Milton, please would they write to him either at this address or: MICHAEL MILTON, 8M-2850, London WC1V, 6XX, England. UFOS SEEN BY M. MILTON:

NEW BOOKS

REVIEW ON UFO AND OTHER BOOKS

CNK has received two books on the same subject called UFOLOGY by James M. McCambell and a second reprint with more pages and the second publication is called UFOLOGY by the same author. The two books have different covers, one brown showing a sphere leaving the sea, and the other runs to 184 pages while the first mentioned has only 153 pages. The first (brown) 153. Both are selling at different prices \$3.95 and \$4.95. The books themselves take a very scientific viewpoint on the UFO which should do well in any researchers bookcase. Listed are: DIFFERENT TYPES OF SPACECRAFT; HIGH FREQUENCY RADIATION EMISSIONS. INTERFERENCE WITH ELECTRICAL CIRCUITS, TEMPORARY PARALYSIS OF WITNESSES. UFOLOGY PRESENTS SOME STARTLING CONCLUSIONS E.G., TWO different races inhabit the vehicles... they sometimes speak in familiar languages... some could pass for humans.

WHAT OTHER SAY: UFOlogy delivers what it promises in an impressive manner." - ASTRONOMY MAGAZINE "...A COMPREHENSIVE EXAMINATION QUITE BEYOND THE SCOPE AND DEPTH OF MOST UFO BOOKS. The UFO RE-PORTER. "...A BASIC PRIMER FOR THE BEGINNER AND A TEXTBOOK FOR THE INFORMED."

-Center for UFO Studies UFOLOGY is a pioneering attempt to come to grips with the physical nature of the UFO phenomenon. It points the way to a scientific approach to the problem which can surely be applauded by physical scientists. "The two chapters on UFO occupants are the most comprehensive analysis that I have seen of the 923 short-range sightings summarised in my book "PASSPORT TO MAGNOLIA") -

Dr. Jacques Vallee, The readers are advised to write to both of these addresses BEFORE sending any money orders, to make sure which address is the current one: TO JAYMAC COMPANY 12 Bryce Court, Belmont, CA 94111 or to: CELESTIAL ARTS, 231 Adrian Road, Milbrae, California, U.S.A. 94030.

A VERY SPECIAL BOOK HAS HIT THE MARKET CALLED "MORE LIVES THAN ONE". IT IS THE EVIDENCE OF THE REMARKABLE BLOXHAM TAPES. This book by Jeffrey Iverson is the story of persons that under hypnosis can recall past lives. Where some lives are repetitive, it is centred on certain individuals who have reportedly lived in ancient times, which, if true, could add to or change some history books. Under hypnosis with Arnold Bloxham, one of the most respected hypnotherapists in Britain, a Welsh Housewife describes in minute detail six quite separate lives; as a wife of a tutor in Roman times; as a Jew during the twelfth-century massacre of Jews in York; as a serving girl to a French medieval merchant prince; as a maid of honour to Catherine of Aragon; as a poor sewing girl in the London Queen Anne, and finally as a nun in America. But why read this, the book itself makes fantastic reading, proving for sure that REINCARNATION is highly probable. Illustrated at £3.50 (1976) 43 Great Russell Street, London, WC1B 3PA and in Canada by Methuen Publications, Agincourt, Ontario.

I HAVE BEEN DELUGED WITH REQUESTS TO SAY SOMETHING ABOUT A CERTAIN WRITER, WHO NEVER SEEMS TO GET MENTIONED IN OTHER BOOKS. HE IS THE MOST UNIQUE PERSON IN THE WORLD, A MAN WHO SEEMS TO KNOW THE TRUE FACTS OF LIFE, AND WHOSE BOOKS SHOULD BE READ. FOR IF THEY ARE READ, THEY WILL CHANGE YOUR WHOLE OUTLOOK ON THIS LIFE, FOR THE BETTER. KNOW LIFE AS IT REALLY IS, AS IT SHOULD BE, AND NOT AS IT IS TODAY.....

KNOW THE TRUTH: READ LOBSANG RAMPA

Janet Roberts writes:- Tuesday Lobsang Rampa! A name once encountered which is either refuted or taken to heart to change one's whole attitude about life and probably that life itself for myself the latter is true. I first read his book "THE CAVE OF THE ANCIENTS" ABOUT 10 YEARS AGO AND WAS ENTHRALLED by it. Recently I fulfilled a previously suppressed wish to acquire all the books he has written and to read and learn from them. For those who have never before heard of Tuesday Lobsang Rampa, I should explain. He was born in Tibet and at the age of seven he entered a lamasery to train as a Lama, both as a priest and a surgeon. His first book is a fascinating autobiography, explaining the ordeals he has had to suffer his beliefs and a culture so very different from our own.

PTO

A culture which I consider to be extremely preferable to our greedy, mercenary and narrow way of life. Following a branch of the Buddhist religion, yoga, natural science and metaphysics, he likens life as we know it to lesson in school, our body being the classroom in which we learn. Death holds no dread or apprehension for him. He does not refute our Christian Bible nor any other religion but if you care to compare facts with an open mind you can discover how basically we all really believe the same; if you are curious read his first book entitled "THE THIRD EYE" published in paperback by Corgi and costing a mere 50p.

You may find as I have that life can take on a real meaning, hardships more easily endured when they have a sense of purpose and natural death looked forward to the way a child looks forward to his school holidays. If only we would change our society to be more purposeful, less selfish and indefinitely happier. The knowledge is there for the learning...let us learn. JANET ROBERTS (January 1977)

NOTICE OF ARTICLE CANCELLATION: Due to lack of space and new news, the article about the Hills kidnap UFO case will be deferred until another issue.

SHIPS VANISH IN THE BERMUDA TRIANGLE (LATEST NEWS 1977)

TWO CARGO CARRYING SHIPS HAVE MYSTERIOUSLY DISAPPEARED IN THE BERMUDA AREA KNOWN FOR ITS VANISHING OF PLANES AND SHIPS, THE BERMUDA TRIANGLE. From The SUN Newspaper Tuesday October 19th 1976.

SEARCHERS last night held out no hope for a ship and its 37 crew missing in the notorious Bermuda Triangle.

The 590-foot Panamanian freighter Sylvia L Ossa was carrying iron ore from Brazil to Philadelphia when she disappeared. No mayday messages were sent. Many ships and planes have disappeared without trace in the triangle, which is bounded by Puerto Rico, Bermuda and Norfolk Virginia.

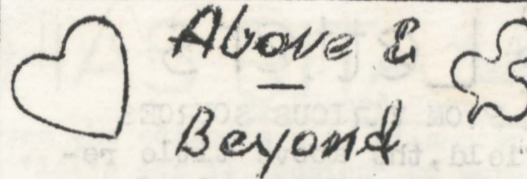

FROM TV: (and editors memory only): A large ship carrying (oil?) was reported missing somewhere in the Atlantic just before Christmas 1976. So far as I have heard, nothing has been found. I hope we do not have another 'triangle' forming in this region. -Editor. Any theories regarding this would be welcomed by CNK from any source.

GRAVITY & ANTI-GRAVITY

By Edward Harris, Editor

Continued: Since the last issue, many things have come to light in my continual search for anti-gravity. One thing for sure is that anti-gravity as we wish it to be, may not, in this century exist. However, there does seem to be with present technology another FORM OF LIFT, which is not in itself anti-gravitation. Unfortunately for us, to even create this 'other form of lift' would mean using atomic power to provide the VAST sum of electricity needed to produce Cathod-Rays in the force that would do what the UFOs are now doing. So far the only system which defies gravity OR USES IT seems to be gyroscopic and electrostatic.

MECHANICAL: In 1974 I was staggered to discover that a prototype anti-gravity device which I was working on, was also being worked on at the same time by another researcher in Colchester, but my idea was researched on a vertical plane and the other was on a horizontal plane. To explain further, I had two rotating gyroscopes on the ends of two fixed arms, when set in motion vertically. This achieved nothing. NOW CNK has kept very quiet about the following person, but now it is time to reveal him. Research into these accending gyroscopes was mentioned in a national newspaper at the time. The researcher was Professor Laithwaite the inventor of the Hover-train. He has now been involved with this principle and two years ago stated that its an alternative power for boats and spacecraft, at least the discontinuance of retro-rockets. The researcher may try it for themselves: Build two hinged arms and place them on a rotating turn-table. On the end of these two arms place two electric motors on which you have FIRMLY secured a disc on each. These act as gyroscopes. Now you have to get the electric motors turning the gyros in the OPPOSITE direction to the rotation of your turn-table. When sufficient speed has been reached on the gyros, then set your turn-table in motion as explained. You will see the gyroscopes will lose their OWN weight and lift up. They are trying to orbit themselves and would complete a circle if allowed to go free. You may get them to do this, but so far it is only the gyros themselves that lose weight and not the object to which they are attached. One thing is certain, man must keep on searching for the answer, before its too late, since a new source of energy MUST be found soon.

Above &

ENCYCLOPEDIA OF THE
STRANGE AND UNKNOWN FOR
CNK READERS IS NOW BEING
COMPILED. It is not yet
in the publication stage.
500 pages (hoped) and
in one volume lots, will
be available soon(?). If
anyone is interested in
obtaining a reservation
copy (so we know how many
is needed) please let me
know soon. Editor. PS. Do
not send any money first.

The Allende Letters

---COMPILED BY THE EDITOR FROM VARIOUS SOURCES

For the newcomer into this field, the above title refers to 'secret' letters to a Dr. M. K. Jessup in January 13th 1956 which hinted at the possibility of an experiment on board a U.S. Warship which went so wrong that all traces of this event are now hard to come by. This story is regarded in some circles to be true, whether it is or not, is up to the reader to be the jury and judge for themselves. Below is an extract from the second letter. On the above date Dr. Jessup received the first of two odd letters from a man(?) calling himself Carlos Miguel Allende. Here is an extract: "Dear Mr. Jessup: Having just recently gotten home from my long travels around the country I find that you had dropped me a card. You ask that I write you 'at once' and so after taking everything into consideration I have decided to do so. You ask me for what is tantamount to positive proof of something that only the duplication of those devices that produced 'This phenomenon' could ever give you." WHY WAS THIS SECOND LETTER SENT. We have to take you to the first letter for the answers: "My Dear Dr. Jessup, Your invocation to the public that they move on Masse upon their Representatives and have thusly enough Pressure placed at the right & sufficient Number of places where from a Law demanding Research into Dr. Albert Einsteins Unified Field Theory be enacted (1925-27) is Not at all Necessary. It May Interest you to know that The Good Doctor Was Not so Much influenced in his retraction of that Work, by Mathematics, as he most assuredly was by Humanics. We are 'told' today that that Theory was 'Incomplete.' Dr. B. Russell asserts privately that It is complete He also says that Man is Not Ready for it & Shan't be until after W.W.III. Nevertheless, 'Results', of my friend Dr. Franklin Reno, Were Used. There Were good results, as far as a Group Math Re-Check AND as far as a good Physical 'result' to Boot. YET, THE NAVY FEARS TO USE THIS RESULT. The result was & stands today as Proof that The Unified Field Theory to a certain extent is correct. True, enough, such a form of Levitation has been accomplished as described. It is also a very commonly observed reaction of certain Metals to certain fields surrounding a current, This field being used for that purpose. Alright, Alright! The 'result' was complete invisibility of a ship. (TO BE CONTINUED NEXT ISSUE-WE HOPE)!+

HAS RITA Telepathic POWER?

By Edward Harris & Mike Milton

Does the editor's wife Rita have telepathic powers??? During a 'let's try it session' we were amazed to find, that in test

Rita Harris-Is she to be telepathic???

after test Rita Harris scored between 99% and 100% direct hits on drawn shapes and objects. During a try out for telepathic communication, researcher Mike Milton drew a number of symbols and articles, while Rita concentrated hard with hands over her eyes. Each try took at least 3-4 minutes of utter concentration in silence. After direct hits for most common symbols, we went into depth and drew objects. One which was conducted by Ted Harris, and drawn by Mike, was a mouth opener when Rita announced she saw a cross of a special shape. There was no other way it could have been 'guessed at' due to its unusual design. Other designs used were the bent cross (Swastika) and a sailing boat, and also telepathy at a distance of 20 miles away...all fairly accurate. Mike Milton who is studying such things, suggests that anyone who practices EVERY DAM at telepathic communication, will one day in the future lead to the discontinuance of the TELEPHONE! At the end of the session there were two astounded members of the staff here with their mouths open and eyes to in surprise at the fact that Rita did it. EPICLOGUE*****

We want each reader to learn from CNK, but lack of space in these pages prevents us from going ahead with the material we receive. There is so much oddities going on on earth. The price for CNK just covers the cost. The last issue/12 was a double issue at 50p, for that issue only. This issue is not quite up to the standard of CNK in general and has been put out to fill the gap left between publications least CNK disappears to ONE a year and this is what I wish to avoid. The next issue can now be got ready to make up for any discrepancies of this issue-a sort of Emergency issue. I thank the readers who have stuck by me in all my publishing and printing troubles (machine don't last forever either). TO CONCLUDE, have you wondered why space humanoids wear breathing masks at times. Well, I think it is because they don't wish to catch our germs, and not because of the oxygen factor or

NEVER MIND 1984' LINE UP OF PLANETS WARNING
(Credit UFO CONTACT-Denmark)

JUST AS WE ARE GETTING ALL LINED UP TO FACE THE CATASTROPHIES OF ORWELL'S 1984 ALONG COME A PAIR OF SCIENTISTS WITH THE MESSAGE THAT DISASTER IS, IN FACT GOING TO STRIKE TWO YEARS EARLIER.

The two respected astronomers—one an Englishman and the other an American have produced an alarming scenario for 1982 which shows the Earth rocked by a series of cataclysmic quakes. The basis for their predictions, explained in their book, THE JUPITER EFFECT, is the fact that in that year, for the first time for 179 years, all nine planets in our solar system will be in a direct line on the same side of the sun. The result: Probable huge storms on the Sun caused by the massive gravitational pull of the planets and consequently the monstrous seismic upheaval.

But a number of astronomers I talked to were inclined to view 1982 with a certain calm philosophy. "They seem to have made out a highly concientious and reasoned case," said Dr. Heriot McGrawman of Edinburgh. "BUT, YOU KNOW, I PREFER TO THINK OF MOTHER NATURE AS MOTHER*IN*LAW NATURE- IN OTHER WORDS, HER BARK IS WORSE THAN HER BITE.

"ALRIGHT, A CASE HAS BEEN MADE OUT. BUT HISTORY particularly scientific history, is full of propositions that have never been borne out". And it is perfectly true that the operative word in the book's thesis is 'may'. Nevertheless, it is unsettling reading—particularly for anyone who happens to live in California. For it is here, says the authors—Englishman John Gribbin and American Stephen Plagman—that the earthquakes could be at their most horrendous. In California is located the so-called San Andreas Fault, one of Earth's major factors. The 'fault' would be HIGHLY vulnerable, attracting an earthquake as naturally as a magnet pulls iron, and destroying much of California in the process.

As for the rest of the world? Many earthquakes, large and small, co-author Gribbin said in London this week. There could be other side effects from the rare planetary line up. Huge storms of sun-spots and solar flares resulting from the stepped-up magnetic activity of the Sun. Sharply altered wind directions in the upper atmosphere causing possible changes in the rainfall and temperature patterns. DOOMSDAY? 'OH, NO, SAY GRIBBIN. 'BUT THERE COULD BE A NASTY GENERAL SORT OF SHAKE UP.' ONE SCIENCE FICTION WRITER SAID: "It means the show of a lifetime." He was referring to the Northern Lights which, he says, promise to be the only spectacular event in 1982 'Rather than dreading that year, I'd say we had something really special to look forward to,' he said. (CNK SAYS BE OK YOUR GUARD).
